FOR IMMEDIATE RELEASE:

MCCREE COMPLETES CONSTRUCTION AT WINTER PARK TOWERS

ORLANDO, FL, November 19 – On November 14, 2012, McCree General Contractors, Inc. along with Winter Park Towers and Westminster Communities of Florida celebrated the Grand Opening of the Loch Berry Apartment Homes and Parking Deck, Winter Park Towers' newest addition.

As demand increases for stress-free and gracious retirement living, Winter Park Towers is growing to provide its residents additional lifestyle choices. The new 5-story, 90,000 square-foot building located on the Winter Park Towers campus off South Lakemont Drive in Winter Park consists of 54 advanced 2-bedroom apartment homes featuring views of lush landscapes and majestic Lake Berry. McCree built each apartment home with custom-feeling touches including granite countertops and hardwood cabinets. Many apartments enjoy superlative lake views, while others boast cozy screened in balconies overlooking the gardens. Prompted to provide a vertical parking structure on a greatly reduced land surface footprint by the need for ample and convenient parking, the project also included a 382 space, multi-level parking deck designed with sensitivity to the surrounding campus and its convenience for residents, visitors and staff. Loch Berry Apartment Homes compliment the diversity of Florida's premier active living continuing care retirement community. In keeping with the impressive history McCree has developed over the years, McCree was able to complete the project on time, on budget, and exceeding quality expectations.

Currently commemorating its 86th year and fourth generation of McCree leadership, McCree, Inc. has been family-owned and operated, in Orlando, since 1926. McCree General Contractors, Inc. provides concept to completion construction services for numerous project types. With more than 1,500 clients, McCree General Contractors, Inc. is a truly integrated General Contractor with licensed Architects, Engineers, and Contractors all working in concert to ensure every project is delivered on time, within budget and exceeding the owners quality expectations.
