FOR IMMEDIATE RELEASE:

MCCREE COMPLETES RENOVATIONS ON THE VISTA LAKES COMMUNITY CENTER

Orlando, FL/September 27, 2013: McCree General Contractors and Architects, Inc. is excited to announce that we recently completed construction and renovations to the Vista Lakes Community Center. This renovation will serve as an important focus for the local Vista Lakes Community, significantly updating the look and feel of both the interior and exterior of these buildings.

The Vista Lakes Community Center Project covered 2,700 square feet and is located at 8841 Lee Vista Boulevard. The project was completed in only three months, running from January to March 2013.

“Our firm is always excited by the opportunity to work with new clients,” said Richard McCree Jr., CEO and President of McCree. “We love the opportunity to demonstrate the quality of our work ethic and construction to new owners.”

McCree has been operating in the Central Florida area for over 87 years, and our experience as General Contractors and Design-Builders gives our team the edge they need to complete any project on-time and on-budget. The renovations to the Vista Lakes Community Center will beautify not only the center itself but the entire community as well. McCree is proud to be a part of improving Central Florida through quality business practices and quality construction.
