**FOR IMMEDIATE RELEASE:**

**MCCREE GENERAL CONTRACTORS AND CUHACI & PETERSON BEGIN THE MARKET AT SOUTHSIDE FAÇADE RENOVATION PROJECT**

**ORLANDO, FL, March 19, 2012** – McCree General Contractors, Inc., along with Cuhaci & Peterson Architects, LLC, is proud to announce The Market at Southside Façade Renovation and Site Upgrades Project on the corner of Orange Avenue and Michigan Avenue in Orlando, Florida. Due to the highly trafficked location of this 97,869 square foot shopping center, the outdated façade has been in want of a modernized upgrade for some time now. McCree and Cuhaci & Peterson are happy to provide just that while remaining on time, within budget, and exceeding quality expectations. Among the more prominent tenants residing in the Market are Publix, Office Depot, and Great Clips. The visually enhanced exterior already promises some exciting new arrivals to the center. One such anticipated occupant is a brand new Applebee's. The intersection of Orange Avenue and Michigan Avenue is very busy and the face lift will increase business for all tenants in the Market at Southside. The project is expected to be completed in September of this year. Included in the scope of work are minimal structural improvements, landscaping, hardscaping, fresh paint, and other updates to the façade. Business will carry on as normal throughout the entirety of the project. Not only will the renovation provide a boost to the local economy with new, popular tenants and increased traffic, but it will also give the shopping center a refreshing new curb appeal. McCree and Cuhaci & Peterson realize this project is not only for the center's current and future occupants, but also for the customers, community, and neighbors of The Market at Southside. For the past 85 years, McCree has been providing concept to completion Design / Build services for numerous project types and serves as Central Florida's oldest Design / Build firm. McCree is a truly integrated design-builder with licensed architects, engineers, and contractors all working in concert to ensure every project is delivered on-time, within budget and exceeding the owners quality expectations.
