**FOR IMMEDIATE RELEASE:**

**MCCREE GENERAL CONTRACTORS AND FRED M. HUMPHREY & ASSOCIATES  
COMPLETE ORLANDO HEALTH – AUDIOLOGY AND PEDIATRIC REHABILITATION  
FACILITIES**

**ORLANDO, FL, MAY 29, 2012** – McCree General Contractors, Inc., along with Fred M. Humphrey & Associates, Inc., recently completed two projects for Orlando Health, the organization’s Audiology facility, as well as their Pediatric Rehabilitation Center.

“We have enjoyed watching Orlando Health flourish throughout our 85 year history in Orlando,” said Richard McCree Jr. “It is always a privilege when we are able to be a part of their growth and transformation.” Orlando Health’s Pediatric Rehabilitation Center, located at 925 South Orange Avenue in Orlando, consisted of 9,000 square feet of interior renovations. Due to the nature of the project and the young patients involved, McCree and Humphrey & Associates took special care to create spaces where not only the children would be able to recover and overcome various challenges, but where their families would be able to remain nearby in comfort. Within the Pediatric Rehabilitation Center, McCree built new lobby areas, speech therapy rooms, offices, a conference room, a kitchen, and private breast feeding rooms. McCree also built multiple state of the art gyms geared towards pediatrics including a large gym, fine motor gym, small and large sensory gyms, a baby gym, and orthopedic adolescent gym. The project was fast tracked; construction began in December, 2011, and three short months later Orlando Health moved in and began use of the space.

The Audiology project located at 50 Sturtevant Street in Orlando consisted of 9,100 square feet of interior renovations. This project was also fast tracked with construction beginning in January, 2012 and completion one month later. A cochlear room testing room, consultation rooms, office spaces, break rooms, a lobby area, updated cabinetry, and advanced technology upgrades were a few of the details included in the complete tenant finish at Orlando Health’s Audiology facility.

Orlando Health had a need for new and updated Audiology and Pediatric Rehabilitation spaces. McCree and Fred Humphrey & Associates were able to give Orlando Health just that with a modern, sleek look without

sacrificing quality, while staying on time and within budget.

Orlando Health is a \$1.9 billion not-for-profit health care organization and a community-based network of hospitals and care centers throughout Central Florida. The organization, which includes the area's only Level One Trauma Centers for adults and pediatrics, is a statutory teaching hospital system that offers both specialty and community hospitals. They are: Orlando Regional Medical Center; Arnold Palmer Hospital for Children; Winnie Palmer Hospital for Women & Babies; Dr. P. Phillips Hospital; South Seminole Hospital; Health Central Hospital, South Lake Hospital (50 percent affiliation); St. Cloud Regional Medical Center (20 percent affiliation) and MD Anderson Cancer Center Orlando – the first affiliate of one of the nation's premier cancer centers, The University of Texas MD Anderson Cancer Center in Houston.

Orlando Health's areas of clinical excellence are heart and vascular, cancer care, neurosciences, surgery, pediatric orthopedics and sports medicine, neonatology, and obstetrics and gynecology. The substantial growth Orlando Health has gone through in the past few years has not only provided jobs for the Central Florida community, but has also positively affected the economy.

For the past 85 years, McCree has been providing concept to completion Design / Build services for numerous project types and serves as Central Florida's oldest Design / Build firm. McCree is a truly integrated design-builder with licensed architects, engineers, and contractors all working in concert to ensure every project is delivered on-time, within budget and exceeding the owner's quality expectations. For additional information on McCree please visit [www.mccree.com](http://www.mccree.com).

Fred M. Humphrey and Associates, Inc. has been providing architectural services in Florida since 1974. Since then, the firm has provided architectural services for a broad range of projects including emergency department expansions, an outpatient physical therapy clinic, three endoscopy suites, and an 8-story parking structure on ORMC campus. It is FMHA's goal to provide professional architectural services to the community and its environment.
